COMMUNICATIONS WORKING GROUP

- IT Requirement
  Workfile Duplication on Central
- Allow ISEAs to query CDM workfiles for records affecting their equipments
- Completed Nov 1999
- IT Req was forwarded to IT Working Group
- Also on CDM/ISEA website
- See Note

COMMUNICATIONS WORKING GROUP

- Create name and title remark for workfile initiator
- We believe that standardizations workfile naming method covers part of the requirement.
- Forward request for additional info to Communications Working Group (Chair = Cabrera)
- Open

COMMUNICATIONS WORKING GROUP

- Request for automated collection and comparison of CDMD-OA users and associated POC Identifier in CDMD-OA

- IT Requirement not generated

- Done manually and used in POC listings

COMMUNICATIONS WORKING GROUP

- CFF data was identified as important to maintaining a record's equipment to ISEA link
- Identify to the Roles & Responsibilities Group the value in proper maintenance of the field

COMMUNICATIONS WORKING GROUP

- NEW ITEMS
  - New CDMD-OA users identified as ISEAs must submit SCLSIS POC (including additional SOS data) with the account request
  - Recommend an on-line discussion forum for SCLSIS for the community (not just working groups).
    - Needs a push capability
  - Anchor desk access to Working Group web
